

OPAL

Pre Production Approval Activities Tracker

GAP INC.

IndigoX

OPAL: One shared way of working

OPAL (Optimized Post Adoption Log) replaces offline trackers and email for pre-production approvals across Brand PDC, GIS Sourcing PD and Vendor Teams

1 END-TO-END WORKFLOW

*SO&A: Sourcing Operations & Analytics Team

2 WHO OWNS WHAT

Brand PDC

OWNS

Brand-related attributes

Updates brand fields and approvals for its own items.

GIS Sourcing PD

OWNS

GIS-related attributes

Updates GIS sourcing / PD fields for its own items.

Vendor

OWNS

Vendor-related attributes

Updates vendor fields and confirmations for its own items.

3 TRANSITION: NEW, CONTINUE OR CLOSED

NEW

From 12 Oct: OPAL only

New items are managed in OPAL from day one.

CONTINUE

Open on 12 Oct: status moves to OPAL

Update the current status in OPAL and carry on there. History, comments and emails stay behind.

CLOSED

Closed before 12th Oct: stays where it is

Completed approvals, issues and actions stay in existing logs. Nothing to port.

Example: a BOM CC approval open on 12 Oct gets its current status updated in OPAL and is worked there. Nothing historical is copied.

OPAL CORE TEAM

Governs the framework: Template changes, Timing and process rules

The Five Key Changes

One OPAL tracker replaces category trackers, Excel, and email for every department involved.

Base order data now flows automatically from Centric PLM into OPAL.

Direct, real-time updates replace the double-layered email relay.

Power BI dashboard refreshes daily, straight from OPAL — no manual compilation.

A standardized pass/fail audit column replaces ad hoc, email-based tracking.

Brand/Divisi... is one of 9 values selected

2	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OL
3	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OL
4	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OL

Shared OPAL reports (such as the Brand Report Report) open in a read-only, shared state. Filtering, grouping, and sorting are disabled on these shared reports the first time you open them. This is expected behaviour, not an error.

3. Save the Report as a New Copy

The screenshot displays the IndigoX application interface. On the left is a blue sidebar with navigation options: Home, Notifications, Search, Browse, Recents, Create, Workspace, and More. The main area is titled 'OPAL - NEW' and contains a 'File library' section with a list of items: Scenario plans, Collections, and Workspace items. Under 'Workspace items', there is a 'Brand Report' folder containing 'BR' and 'GAP', a 'Vendor' folder, and several other items like 'Attribute Dictionary', 'Master Report', 'Template', and 'Untitled sheet'. A red box labeled '1' highlights the 'File' menu icon in the top right corner. A red box labeled '2' highlights the 'Save as New...' option in the 'File' dropdown menu. A red callout box points to the 'Save as New...' option with the text: 'Select Save as New from the dropdown menu list.' The background shows a spreadsheet view with columns for Season, Brand/Division (LAS Input), Department (LAS Input), and Collection Input. The data rows show 'Spring 2027' for the Season and 'BANANA REPUBLIC - MENS' for the Brand/Division.

4. Name and Save Your Report

5. Locate Your New Report

The screenshot shows the IndigoX interface. On the left is a blue sidebar with navigation icons: Home, Notifications, Search, Browse, Recents (highlighted with a red box and a red circle with the number 1), Create, Workspace, More, and a user profile icon. The main area is titled 'OPAL - NEW' and contains a 'Recents' panel. This panel has a search bar 'Find by name' and a list of reports: 'My Brand Report' (highlighted with a yellow box and a red callout box saying 'Your report will appear in Recents'), 'SG CORPORATION', 'AMBATTUR FASHION INDIA ...', 'Master Report', 'Attribute Dictionary', 'GAP', 'PLM Mod - Published Traini...', 'ID TB Agenda', 'DPC-PLM Program Plan', and 'PLM Training Needs Analysis'. The background shows a data table with columns: Sheet Name, Season, Brand/Division (LAS Input), Department (LAS Input), and Collection Input. The table contains four rows of data, all with 'SG CORPORATION' in the Sheet Name column and 'Spring 2027' in the Season column. The Brand/Division is 'BANANA REPUBLIC - MENS' and the Department is 'MENS OUTERWEAR'. The Collection Input is 'MENS OUT'. The table has a status bar at the bottom right showing 'Prev | 1 - 2500 of 2822 | Next'.

	Sheet Name	Season	Brand/Division (LAS Input)	Department (LAS Input)	Collection Input
1	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
3	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
4	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT

6. Verify Your New Report

The screenshot shows a web browser window with the URL <https://app.smartsheet.com/reports/766RmCPQVQrgQFwjh5HC5wRjMwXmG7R9pFp6W81?view=grid>. The page title is "My Brand Report". The table has 8 columns: Sheet Name, Season, Brand/Division (LAS Input), Department (LAS Input), Collection (LAS Input), Design Number (LAS Input), and Design Name (LAS Input). The first four rows of data are visible, all for "Spring 2027" and "BANANA REPUBLIC - MENS".

	Sheet Name	Season	Brand/Division (LAS Input)	Department (LAS Input)	Collection (LAS Input)	Design Number (LAS Input)	Design Name (LAS Input)
1	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D110918	COATED JACKET
2	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D110924	LINEN TF
3	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D99973	Oversizec Utility Twi
4	SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D99985	Oversizec Inspired E

At the bottom of the table, there is a pagination bar showing "Prev | 1 - 2500 of 2821 | Next".

Your report will appear as such.

7. Add Filters and Update Records

The image illustrates the process of adding filters and updating records in a software interface, divided into three panels with numbered steps (1-8) and descriptive callouts.

Panel 1 (Left):

- 1** Select Filter icon (indicated by a red box around the funnel icon).
- 2** Select the + icon (indicated by a red box around the plus icon).
- 3** Select target column (indicated by a red box around "Brand/Division (LAS Input)" in the column list).

Panel 2 (Middle):

- 4** Select filter criteria (indicated by a red box around "is one of" in the dropdown menu).
- 5** Select relevant values (indicated by a red box around the list of values: "BANANA REPUBLIC - MENS", "BANANA REPUBLIC - WOMENS", "GAP - BOYS", "GAP - GIRLS").

Panel 3 (Right):

- 6** Select Save. The Save Filter modal window will popup. (indicated by a red box around the "Save" button).
- 7** Name your filter (indicated by a red box around the text input field containing "Brand Division & BOM Version").
- 8** Select Save (indicated by a red box around the "Save" button in the modal window).

Select appropriate value from dropdown list.

8. Attribute Ownership & Update Rules

Not every field in the tracker is owned by every role. Before editing a column, confirm that it falls within your team's responsibility.

Refer to the OPAL Attribute Dictionary for a full breakdown of roles and responsibilities for each attribute before making updates.

Important: Updating an attribute outside your assigned ownership may overwrite data maintained by another team. When in doubt, check the Attribute Dictionary first.
