

OPAL

Pre Production Approval Activities Tracker

GAP INC.

IndigoX

The Five Key Changes

One OPAL tracker replaces category trackers, Excel, and email for every department involved.

Base order data now flows automatically from Centric PLM into OPAL.

Direct, real-time updates replace the double-layered email relay.

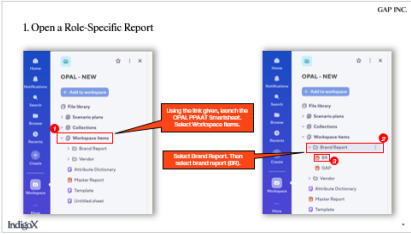

Power BI dashboard refreshes daily, straight from OPAL — no manual compilation.

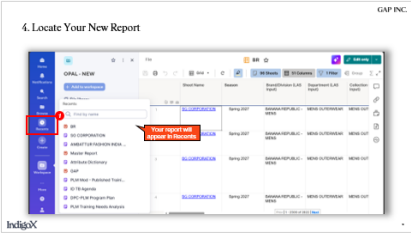

A standardized pass/fail audit column replaces ad hoc, email-based tracking.

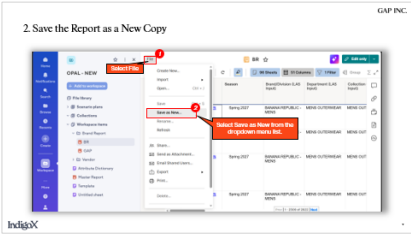

Contents

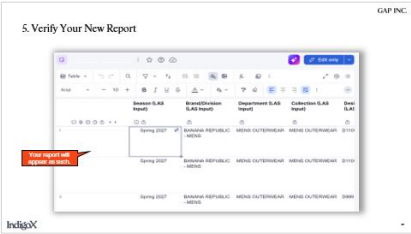

Step 1. Open a Role-Specific Report

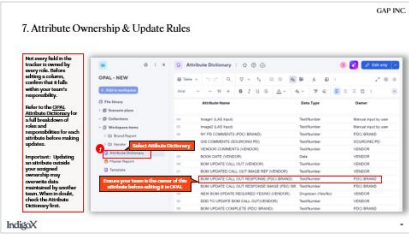

Step 4. Locate Your New Report

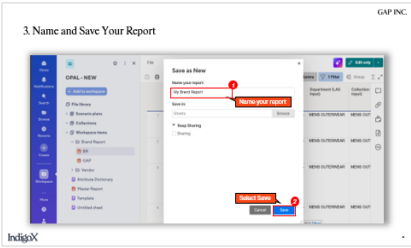

Step 2. Save the Report as a New Copy

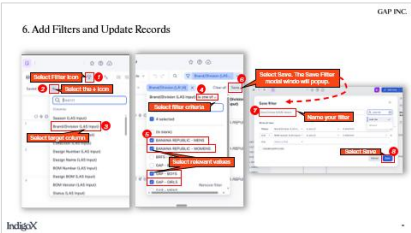

Step 5. Verify Your New Report

Attribute Ownership & Update Rules

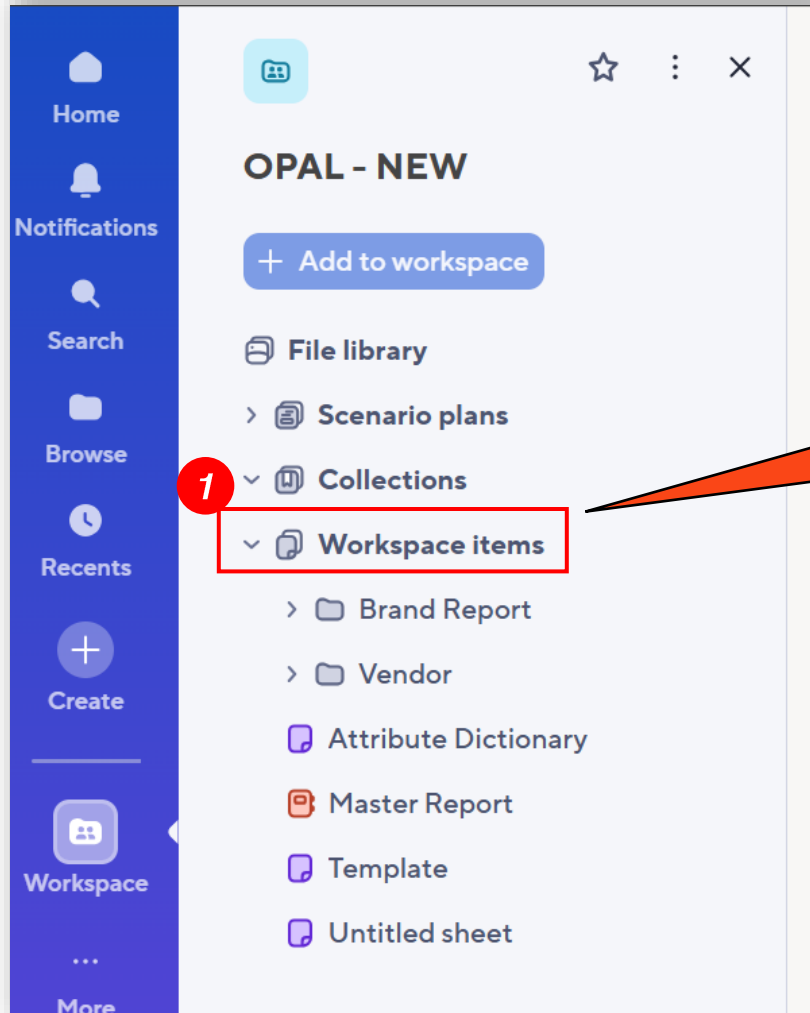

Step 3. Name and Save Your New Report

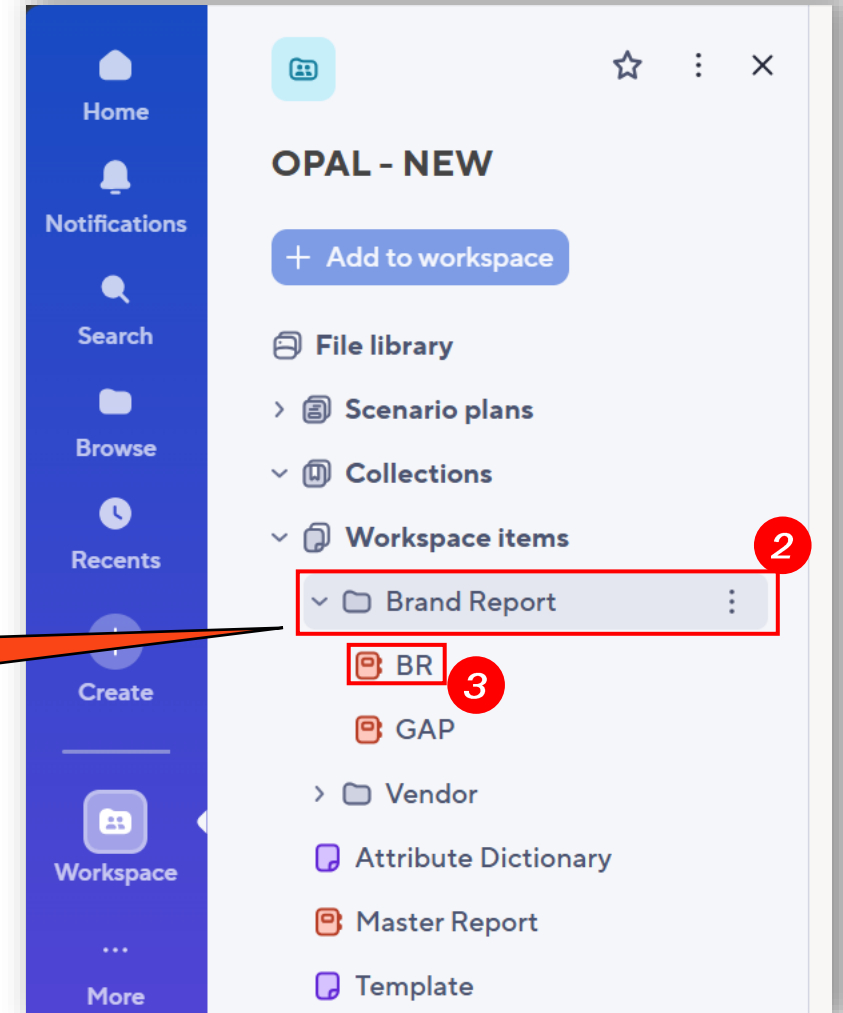

Step 6. Add Filters and Update Records

1. Open a Role-Specific Report

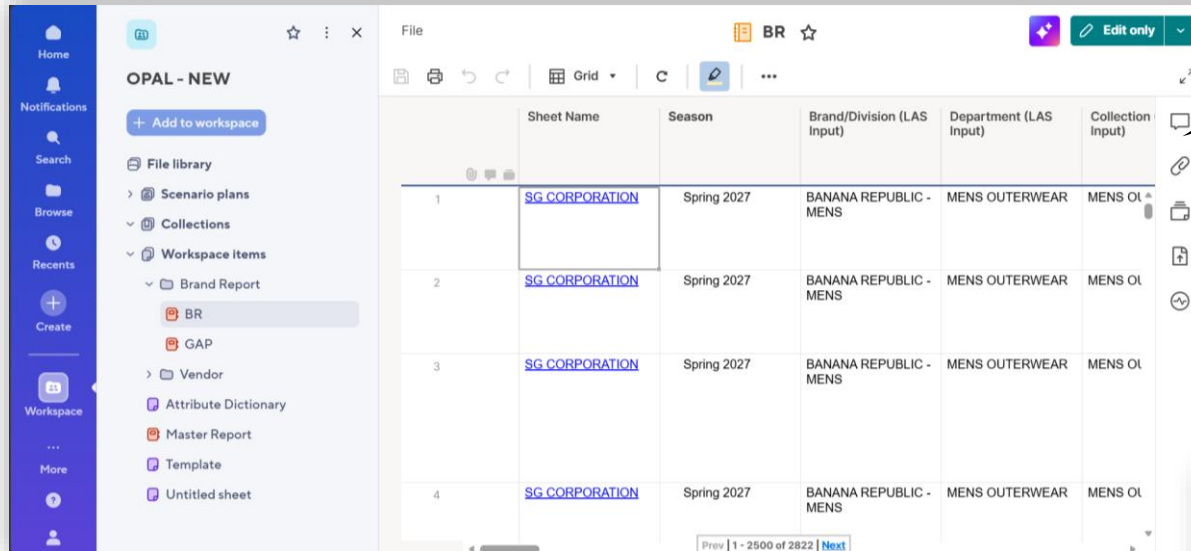

Using the link given, launch the OPAL PPAAT Smartsheet. Select Workspace Items.

Select Brand Report. Then select brand report (BR).

1. Open a Role-Specific Report (cont.)

Brand/Divisi... is one of 9 values selected

Shared OPAL reports (such as the Brand Report Report) open in a read-only, shared state. Filtering, grouping, and sorting are disabled on these shared reports the first time you open them. This is expected behaviour, not an error.

2. Save the Report as a New Copy

The screenshot displays the IndigoX application interface. On the left is a blue sidebar with navigation options: Home, Notifications, Search, Browse, Recents, Create, Workspace, and More. The main area is titled 'OPAL - NEW' and contains a 'File library' section with a list of items: Scenario plans, Collections, and Workspace items. Under 'Workspace items', there is a 'Brand Report' folder containing 'BR' and 'GAP', a 'Vendor' folder, and several other items like 'Attribute Dictionary', 'Master Report', 'Template', and 'Untitled sheet'. A red box labeled '1' points to the 'File' menu icon in the top right corner. A red box labeled '2' points to the 'Save as New...' option in the 'File' menu. A red callout box with the text 'Select Save as New from the dropdown menu list.' points to the 'Save as New...' option. The background shows a spreadsheet with columns: Season, Brand/Division (LAS Input), Department (LAS Input), and Collection Input. The data rows show 'Spring 2027' for the Season, 'BANANA REPUBLIC - MENS' for the Brand/Division, 'MENS OUTERWEAR' for the Department, and 'MENS OUT' for the Collection Input. The bottom status bar shows 'Prev | 1 - 2500 of 2822 | Next'.

4. Locate Your New Report

The screenshot displays the IndigoX application interface. On the left, a blue sidebar contains navigation icons: Home, Notifications, Search, Browse, Recents (highlighted with a red box and a red circle with the number 1), Create, Workspace, More, and a user profile icon. The main area shows a workspace titled 'OPAL - NEW' with a '+ Add to workspace' button. Below this is a 'Recents' panel with a search bar 'Find by name' and a list of recent reports: BR, SG CORPORATION, AMBATTUR FASHION INDIA ..., Master Report, Attribute Dictionary, GAP, PLM Mod - Published Traini..., ID TB Agenda, DPC-PLM Program Plan, and PLM Training Needs Analysis. A red callout bubble points to the 'SG CORPORATION' entry in the list, containing the text 'Your report will appear in Recents'. The background shows a data table with columns: Sheet Name, Season, Brand/Division (LAS Input), Department (LAS Input), and Collection Input. The table contains four rows, all with 'SG CORPORATION' in the 'Sheet Name' column and 'Spring 2027' in the 'Season' column. The 'Brand/Division' column contains 'BANANA REPUBLIC - MENS', and the 'Department' column contains 'MENS OUTERWEAR'. The 'Collection Input' column contains 'MENS OUT'. The bottom of the table has a pagination bar: 'Prev | 1 - 2500 of 2822 | Next'.

Sheet Name	Season	Brand/Division (LAS Input)	Department (LAS Input)	Collection Input
SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT
SG CORPORATION	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUT

Your report will appear as such.

ort will s such.

	Season (LAS Input)	Brand/Division (LAS Input)	Department (LAS Input)	Collection (LAS Input)	Design (LAS Input)
1	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D1109
	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D1109
3	Spring 2027	BANANA REPUBLIC - MENS	MENS OUTERWEAR	MENS OUTERWEAR	D999

6. Add Filters and Update Records

The image is a composite of three screenshots from a software application, illustrating the process of adding filters and updating records. The steps are numbered 1 through 8.

- Step 1:** Select Filter icon. A red box highlights the funnel icon in the top toolbar.
- Step 2:** Select the + icon. A red box highlights the plus icon in the top toolbar.
- Step 3:** Select target column. A red box highlights the 'Brand/Division (LAS Input)' column in the list of columns.
- Step 4:** Select filter criteria. A red box highlights the 'is one of' dropdown menu in the filter configuration panel.
- Step 5:** Select relevant values. A red box highlights the list of values (BANANA REPUBLIC - MENS, BANANA REPUBLIC - WOMENS, GAP - BOYS, GAP - GIRLS) in the filter configuration panel.
- Step 6:** Select Save. The Save Filter modal window will popup. A red box highlights the 'Save' button in the top toolbar.
- Step 7:** Name your filter. A red box highlights the 'Brand Division & BOM Version' text in the 'Save filter' modal window.
- Step 8:** Select Save. A red box highlights the 'Save' button in the 'Save filter' modal window.

2

Select the arrow (if presented)

3

Select appropriate value from dropdown list.

7. Attribute Ownership & Update Rules

Not every field in the tracker is owned by every role. Before editing a column, confirm that it falls within your team's responsibility.

Refer to the OPAL Attribute Dictionary for a full breakdown of roles and responsibilities for each attribute before making updates.

Important: Updating an attribute outside your assigned ownership may overwrite data maintained by another team. When in doubt, check the Attribute Dictionary first.
